## Profile

---

A ReactJS developer focused on building responsive cross-platform web applications. A team player committed to building user-friendly and lightweight web applications also concentrated on applying technical expertise to web development and was always determined to implement new strategies to make web apps more efficient.

## Professional Experience

---

06/2023

Abeokuta, Nigeria

### Complanet Technologies, Frontend Developer

- Collaborated with a team of two developers to build a popular betting organization grant application website (for both users and the admin website) and deployed it live. Which gives a platform for all agents of the betting company and any NGO bodies to apply for grants throughout Nigeria.
- Rebuilt a 1-year-old prototype Wordpress-powered NGO website for a client using the latest React practice.

01/2023 – 06/2023

Lagos, Nigeria

### iobotech, Frontend Developer [🔗](#)

- Collaborated with a team of developers to build a modern and responsive company website.
- Collaborated to build a web app that enables customers to embrace predictive analytics and ensure effective building maintenance around the clock and from anywhere.
- Helped about 2000 customers to achieve a drastic reduction of about 50% in their operational costs and stricter security on their building maintenance.

01/2022 – 02/2023

Los Angeles, United State.

### 100Devs, Frontend Developer

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Applied agile methodologies like SCRUM for project management.
- Rebuilt a 4-year-old vanilla JavaScript-powered e-commerce website using React 18 and the React Context API for a better full-user experience.
- Rebuilt a 2-year-old prototype vanilla JavaScript-powered restaurant website using React 18, React Redux, and the Redux toolkit.
- Built an Amazon clone using React 18, React Redux, the Redux toolkit, and Firebase to manage the state of users.

01/2021 – present

Abeokuta, Nigeria

### Abitech, Web Developer

- Created web applications and static websites for different clients across small and medium-sized businesses. I also consulted on SEO and social media strategy.
- Developed a fashion e-commerce app prototype.
- Gained excellent skills in using continuous integration tools.

## Projects

---

07/2023 – present

### GRANTIQUER WEBAPP [🔗](#)

A platform where the agents of a popular betting company and NGO agencies can apply for grants for the development of Nigeria as a whole.

Stack: ReactJs, JavaScript, React Bootstrap, Axios and Lots more

07/2023 – present

### GRANTIQ ADMIN WEBAPP [↗](#)

This helps the admin from the betting company keep track of all registered agents and NGOs, all grant applications submitted, and the status of the applications.

Stack: ReactJs, JavaScript, React Bootstrap, Axios and Lots more

05/2023 – present

### Jumia Clone [↗](#)

This is a clone of a popular online store that allows effortless shopping, cart management, and a delightful user experience

Stack: React, JavaScript, Redux, ReduxToolKit, Tailwind CSS

### Shoppy, e-commerce website [↗](#)

The website was built with ReactJS.

- learned how to manage the different states of an e-commerce website using the React Context API.
- learned how to pull product data from the Firebase Realtime Database.
- reinforced my knowledge of routing.

### freshAlways, e-commerce

The website was built with ReactJS.

- learned how to manage the different states of an e-commerce website using the React Redux and Redux toolkits.
- learned how to pull product data from the Firebase Realtime Database.
- learned how to work with Firebase storage and Firebase authentication.
- reinforced my knowledge of routing.

### Disney+ clone, Movie Room [↗](#)

The website was built with ReactJS.

- reinforced the knowledge of state management using React Redux and Redux toolkits.
- reinforced the knowledge of pulling data from the Firebase real-time database.
- learned how to provide a details page for all products using React-Router-Dom.
- reinforced my knowledge of routing.
